F. Cost Proposal

Parsons is pleased to submit this cost proposal for the Engineering Design Services for Combined Sewer Overflow (CSO)
Dechlorination Facilities in accordance with Atlanta's Request for Proposals Number FC-7506-02. A summary of the estimated engineering costs is provided in the attached Table F-1, Task Cost Summary. As requested in the proposal, costs are divided into 8 tasks as follows:

- Task 1 Conceptual Design
- Task 2 Value Engineering
- Task 3 Design Development
- Task 4 Final Design
- Task 5 Construction Services
- Task 6 Project Commissioning, Testing and Start-up
- Task 7 Project Closeout Phase, and
- Task 8 Post Construction Phase

Our estimate of costs assumes that information from previous studies and reports will be made available in electronic format, that the facilities to be designed conform to those described in the City of Atlanta CSO Remedial Measures Plan, East & West CSO Facilities Dechlorination Pre-Design Report dated July 2002, and that electronic CADD files from that report will be made available to the selected firm. In preparing this cost estimate, we have reviewed the project requirements and believe that construction documents will include approximately 60 construction drawings.

We trust this information is sufficient to allow the City of Atlanta to fully understand and review our cost proposal.

From:

Jack E. Ravan, Watershed Management, Commissioner

Date:

Monday, January 6, 2003

Subject:

Contract Award to Parsons Infrastrucure & Technology Group, Inc. for - FC-7506-

02 Engineering Design Services for CSO Dechlorination

Facilities.

The Department of Watershed Management recommends a contract to be awarded to Parsons Infrastructure & Technology Group, Inc. for a total cost not to exceed the amount of \$602,378.-.

Four proposals were received for this project. They were from:

- Parsons Infrastrucure & Technology Group, Inc.
- MACTEC Engineering & Consulting, Inc.
- Lockwood Greene
- Earthtech/B&E Jackson

Evaluation of the proposals were made by four departmental Engineers. The proposal of Parsons Infrastructure was rated No1; it also had the lowest cost, which was below the estimated cost.

The project will be managed by Deputy Commissioner Robert Hunter and his designated representative(s).

Attached is the Requisition for this project. Please prepare a resolution for consideration at the January 14, 2003 City Utility Committee meeting which should place the Resolution on the February 3, 2003 City Council agenda.

The cost of the project should be charged to account and center number 2J27 573001 M24 I 0269 9999.

If you have any questions concerning this recommendation, please contact me at extension 6224.

DATE: December 5, 2002

RE:

Recommendation for FC 7506-02, Engineering Design Services for CSO

Dechlorination Facilities (RFP)

The Office of Contract Compliance has reviewed the proposals submitted by all four (4) proponents. All four proponents are eligible bidders under Section 2-1449 (a)(2)(C) and have been deemed responsive by the Office of Contract Compliance.
